

**Hello my name is Arjan
van den Broek
Welcome to my
presentation about Eddy
The educational robot**

Hi! I'm Eddy
I am your
teacher for today

**This is a lesson about
counting, dividing and
multiply**

45 plus 55 =

**Who knows the right
answer????**

$1,3 \times 20 =$

**Who knows the right
answer????**

490 : 7=

**Who knows the right
answer????**

Lets start a quiz about numbers!

What are the first three numbers of π ?

**I cycled 21 miles yesterday
and 18 miles today.
How far did I cycle
altogether?**

**Arjan's birthday is June
26th. My birthday is
exactly one week later.
When is my birthday?**

A restaurant bill comes to €80,00. Four people split the bill equally, after adding a 1 euro tip each person. How much should each person pay?

The fuel gauge in my car shows half full. A full tank is 60 litres. If fuel costs €1.50 per litre, how much should I pay to fill the tank?

Lets sing a song
about numbers

Thank you for
your attention.
Are there any
questions?
